Description

It is about 18m² and is perfect for a couple. It has a fully equipped kitchenette with a 2-ring hob, a single sink, a fridge with a small freezer compartment, a microwave, a toaster, a kettle, a coffee-maker, crockery and pots & pans.

From the kitchenette you have a large window, which opens onto the old wood-fire oven, where the locals used to come bake their bread for the week!

In the living/dining area, there's a table with chairs, a TV/DVD player, a light wooden wardrobe, and the double sofa-bed. The sofa-bed, has a top-of-the range mattress on it for your comfort.

There's also a very comfortable shower-room, with a hand-basin, WC and shower.

The property is very luminous and we have retained the original stone walls on one side and on the other we used a lime-mix to add even more light in the studio.

You can also have an afternoon drink on your own private terrace, which is separated from the other cottages by a wall flowers and a wooden separation
